

PREPARED FOR TRIDENT BUSINESS SALES
6 AUGUST 2026 . MEASURED, NOT ESTIMATED

Fifty-three times out of fifty-nine, a seller was given someone else's name

An owner thinking about selling asks ChatGPT who to use. It gives them one answer, a name, and they ring it. Nobody rings you to tell you it happened. On 6 August we asked 59 times and checked what came back.

THE QUESTION YOUR BUYERS ARE ASKING

"Who are the best business brokers in Melbourne?"

WHAT CAME BACK

6 of 59 sampled answers named Trident Business Sales.
1, 2, 2, 3, 4 the positions you held when named. When you appear, you appear near the top.
53 answers did not mention you at all.

AND WHEN WE ASKED ABOUT YOU BY NAME

We asked the assistants directly about Trident, on 6 and 7 August.

The answers were not consistent with each other, and one of them raised material about your firm that we are not going to put in writing to you or to anyone else.

It is not defamatory of us to say it exists, and it is not something you can currently see. It is the first thing we would want to show you on a call, privately, with the screen in front of you.

WHO IT NAMED INSTEAD

ChatGPT and Claude, sampled 59 times on 6 August 2026, named: LINK Business Brokers, Benchmark Business Sales, Xclusive Business Sales, Aussie Business Sales, VIC Brokers, Morgan Business Sales, Business Brokers Victoria, Finn Business Sales.

WHY THIS MATTERS

Forty years of reputation in this trade, and in fifty-three conversations out of fifty-nine your name did not come up at all. When it did, you ranked first or second. So reach is one issue. What is being said when you are found is a separate one, and it is the more urgent of the two.

What this gives you

This is the only sales channel you cannot see: no impression, no click, no record, so nothing in your reporting will ever show you the buyer who asked a machine and was handed someone else's name. We measure what the assistants actually say when a buyer asks who to use, counted and dated, so you can read what they read. Already paying someone for search or AI work? Keep them. We tell them where to aim, and tell you whether it worked.

Why you, and who is doing this

You were chosen, not scraped. We measure a small number of firms whose work suggests they would actually want the answer, and we do it before making contact. That is why this page already exists.
Lee Powell runs every assessment himself. Thirty years in commercial software, creator of Scrivener for Windows and its million-plus writers, two companies built and sold, previously IBM, banking and pharmaceutical systems, Oxford masters on a full scholarship. Someone who can talk business and read the machine.
You will know what the machines say about your business before your competitors know about theirs. When something moves, you will be able to prove it moved and say when it started, because nobody can measure backwards and a baseline begun today is one they cannot buy at any price. And whatever this costs later, it will never cost you more than it does now.

Assessment A\$990, or A\$1,490 with a 90-day re-measure that puts a before and after on paper. Delivered personally within five business days. If the machines already have you covered, we will show you that, and there is nothing for you to buy.
