

DRAFT, NOT FOR SEND. CHECK THE QUALIFICATIONS ARE ASSIGNED TO THE RIGHT PEOPLE

PREPARED FOR EXPERT BUSINESS BROKERS
6 AUGUST 2026 . MEASURED, NOT ESTIMATED

AI added a person to your team who does not exist

An owner thinking about selling asks ChatGPT who to use, and rings the name it gives. On 6 August we asked 59 times and checked what came back.

THE QUESTION YOUR BUYERS ARE ASKING

"Who are the best business brokers in Melbourne?"

WHAT CAME BACK

0 of 59 sampled answers named Expert Business Brokers.

4 of 59 answers used your website as a source.

ONE THING IT SAID

Asked directly about your firm, one assistant listed six people on your team.

Five of them are yours. The sixth does not exist, and never has.

The invented name sat in the same sentence, in the same confident tone, as the five real ones. Nothing in the answer distinguished them, and a seller reading it has no way to tell which is which.

WHO IT NAMED INSTEAD

ChatGPT and Claude, sampled 59 times on 6 August 2026, named: LINK Business Brokers, Benchmark Business Sales, Xclusive Business Sales, Aussie Business Sales, VIC Brokers, Morgan Business Sales, Trident Business Sales, Finn Business Sales.

WHY THIS MATTERS

That is the part worth sitting with. The machine was right five times out of six, in one breath, with no change in tone. Confidence is not evidence of accuracy, and your buyers have no way to tell the difference. Neither did we, until we checked.

What this gives you

This is the only sales channel you cannot see: no impression, no click, no record, so nothing in your reporting will ever show you the buyer who asked a machine and was handed someone else's name. We measure what the assistants actually say when a buyer asks who to use, counted and dated, so you can read what they read. Already paying someone for search or AI work? Keep them. We tell them where to aim, and tell you whether it worked.

Why you, and who is doing this

You were chosen, not scraped. We measure a small number of firms whose work suggests they would actually want the answer, and we do it before making contact. That is why this page already exists.

Lee Powell runs every assessment himself. Thirty years in commercial software, creator of Scrivener for Windows and its million-plus writers, two companies built and sold, previously IBM, banking and pharmaceutical systems, Oxford masters on a full scholarship. Someone who can talk business and read the machine.

You will know what the machines say about your business before your competitors know about theirs. When something moves, you will be able to prove it moved and say when it started, because nobody can measure backwards and a baseline begun today is one they cannot buy at any price. And whatever this costs later, it will never cost you more than it does now.

Assessment A\$990, or A\$1,490 with a 90-day re-measure that puts a before and after on paper. Delivered personally within five business days. If the machines already have you covered, we will show you that, and there is nothing for you to buy.
